## Experience

### DSK Bank

Senior .NET Developer

June 2025 - Present (5 months)

Sofia City, Bulgaria

### PayRetailers

1 year 2 months

Software Engineering Team Lead

July 2024 - April 2025 (10 months)

Sofia, Bulgaria

As a Software Engineering Team Lead, I lead a team of six senior professionals, driving daily standups, backlog refinements, and planning meetings to ensure seamless project execution. I actively collaborate with other Team Leads and Staff Engineers to foster cross-team cooperation and drive shared initiatives. In addition to directly engaging with management, I create and prioritize technical tasks, contribute to architectural discussions, and help shape innovative technical solutions that align with our strategic goals.

### Software Developer

March 2024 - July 2024 (5 months)

Sofia, Sofia City, Bulgaria

As a Software Developer in PayRetailers, I was part of a team that played a pivotal role in developing the innovative e-payment wallet - Kuady. We

led the design and implementation of the notification microservice, crucial for seamless communication across all microservice domains. We also contributed to secure and efficient P2P transfer functionality, enhancing user experience. Leveraging Azure Functions and Service Bus within an Azure cloud solution, we facilitated robust asynchronous and synchronous communications.

## MentorMate

### Software Developer

May 2022 - March 2024 (1 year 11 months)

Sofia, Sofia City, Bulgaria

### MasterAtlas

Developed a Microsoft Azure cloud-based solution for the concrete industry, focusing on backend infrastructure and data processing. Utilized Azure Service Bus and Azure Functions to handle large volumes of data efficiently. Designed a comprehensive system that monitors the entire concrete delivery process, from truck departure to site pouring and return to the plant. Implemented real-time push notifications to alert stakeholders of any deviations in concrete characteristics, ensuring quality control throughout operations.

### Offer Wall

Engineered an AWS cloud solution tailored for the entertainment industry, employing a microservices architecture to enhance scalability and flexibility. Integrated with authentication services and numerous third-party providers to enrich platform functionality. Implemented the CQRS pattern to effectively segregate read and write operations to the database, optimizing system performance. Demonstrated commitment to software quality by diligently crafting comprehensive unit tests, striving for high coverage and robustness.

## Nemetschek Bulgaria

1 year 10 months

### Junior Software Developer

November 2020 - May 2022 (1 year 7 months)

Sofia, Sofia City, Bulgaria

As a Junior Software Developer at Nemetschek Bulgaria, I contributed to the development of a web application for facility management. Working with technologies such as WCF, Angular, and ASP.NET MVC, I handled server-side and client-side tasks. Responsibilities included writing REST service methods, conducting unit tests, crafting SQL stored procedures, customizing

PrimeNG controls, generating SSRS reports, configuring IIS, and providing training to interns and mentoring students on real-world projects.

#### Junior Software Developer - Intern

August 2020 - November 2020 (4 months)

Sofia, Sofia City, Bulgaria

During my internship, I assisted in creating a web application for parking space management, employing Angular, WCF REST Services, ASP.NET MVC, and MSSQL. Focused on server-side development, I prioritized adherence to best practices and SOLID principles. Additionally, I contributed to enhancing security and access control by integrating Active Directory and implementing JWT authentication.

#### MentorMate

Software Development Trainee

March 2020 - June 2020 (4 months)

Plovdiv, Bulgaria

#### TTEC

Technical Support Specialist

September 2019 - March 2020 (7 months)

Plovdiv, Bulgaria

---

## Education

Technical University of Sofia

Bachelor's degree, Engineering · (2015 - 2019)

Software University (softuni.bg)

Computer Software Engineer's Degree · (2018 - 2020)

Foreign Language School prof Asen Zlatarov

Spanish and English · (2010 - 2015)
